TREE PRUNING FOR THE UPCOMING WINTER SEASON

Over the next few weeks, crews will be conducting block pruning work for approximately 1,900 Town-owned trees. Also, sidewalk snow plowing machines will be conducting dry runs to identify encroachments and obstructions that may impact sidewalk snow plowing operations, such as Town-owned and private trees.

PROTECT YOUR PROPERTY THIS WINTER: EDGE YOUR SOD

Help us out this winter by edging your sod and ensuring landscape features are at least 18" (45 cm) away from both sides of the sidewalk to prevent damage during winter maintenance measures. Sod that is edged will prevent tearing when sidewalk snow plows make their way through your neighbourhood. If your sod is damaged during the winter, email info@newmarket.ca to be placed on the sod repair list.
