## Central York Fire Services Incident Report

**Incident Type:** Gas Leak

**Date:** September 27, 2016

**Time of Call:** 7:13 p.m.

**Address / location of incident:** Corner of Wellington Street East and Berczy Street in Aurora, by the GO Station.

**Description:** Central York Fire Services (CYFS) responded to a large gas leak at the corner of Wellington Street East and Berczy Street in Aurora near the GO Station. A large-scale evacuation was initiated and train traffic could not proceed to the Aurora GO Station. Wellington Street East was closed in both directions as were side streets from Walton Drive through to Industrial Parkway.

**Cause of incident:** Construction related

**Casualties / Injuries:** There are no reported injuries.

**Community Impact:** Large-scale evacuation.

**Current Status:** Leak is contained and fixed. All residents are back in their homes.

**Resources Used:** CYFS worked in collaboration with York Regional Police, York EMS, Enbridge and other local utility agencies.
